Lighting, Evolved.

plasmaglow

manufacturing only the best products, for over 13 years

This year marks 15 years of our success as a company. We would like to thank all of our dealers, distributors, and customers for making 2013 another amazing year! With your continued support, we have been able to expand our product line considerably and maintain our position as the leader of the automotive lighting industry. While the economy has been unpredictable, our product line has been growing fast and strong with the support of our dealers and customers. Since our last catalog, we have made many changes as a company. We made a bold move to convert our corporate headquarters in Gilbert, AZ to 100% solar power. Powered with over 550 solar panels, our facility is completely self-sufficient. Additionally we have moved a large portion of our assembly, packaging, and manufacturing to the USA. This allows us to provide the best quality with the fastest service in the industry. Our new eco-friendly packaging initiative has also help us meet our goals of environmental responsibility.

As a leader in the automotive industry, PlasmaGlow has been featured by Electronic Arts in past Need For Speed games for PlayStation2, PlayStation 3, PSP, Nintendo GameCube, GameBoy Advance, Nintendo DS, Xbox, Xbox 360, and PC. PlasmaGlow was also featured in the new Need For Speed Carbon for Nintendo Wii.

For those of you who are new to us, we are excited to welcome you to our team. PlasmaGlow will always have the hottest new products, because the development of new technologies is our highest priority. Our quality and innovation are unmatched, and our competitors prove this by continually trailing behind and imitating our products year after year. We were the first company in the world to develop color-changing LED systems for automotive use, and we are always working on new products to maintain our position as the innovators of the lighting industry.

Welcome to PlasmaGlow

LED Headlight Conversion Kit

The built-in reflector and anti-glare design puts more light on the road without blinding other drivers, and with a lifespan of over 30,000 hours, you'll never have to replace a bulb again. The plug and play system is designed to replace your stock bulb with no modification to the vehicle. There is no lighting system that is more advanced and easy to install.

Made in USA CREE LEDs. Outputs over 2,400 Lumens, Color temperature of 5000 kelvin.

Aviation quality aluminum die-casting is used in the casing, and integrated forced air cooling keeps the bulbs cool and efficient as possible. Operates on 10V-32V.

Bulbs are sold as a pair, except the motorcycle conversion that comes packaged as a single bulb.

- > 65% Less Power Draw than Halogen
- > 40% Less Power Draw than HID
- > Lasts 11 Times Longer than HID
- > Built-in Cooling Generates No Heat
- > Plug & Play Replacement
- > Available in H1, H4, H7, H11, H13, H16 (5202), 9004, 9005, 9006, 9007, 893 (880)
- > More Part Numbers Coming Soon

PRO Series LED Headlights

- NEW SMALLER SIZE FITS ANY HEADLIGHT HOUSING!
Aviation quality aluminum die-casting is used in the casing , and integrated forced air cooling keeps the bulbs as cool and effecient as possible.
- > Made in USA CREE LEDs
> Outputs over 2,400 lumens
> Color temperature of 5700 kelvin
> 3-Year Warranty
- > Will work for both projector and reflector headlights
Recommended for Jaguar, VW, and Mercedes.
> Build in reflectors and anti-glare design!

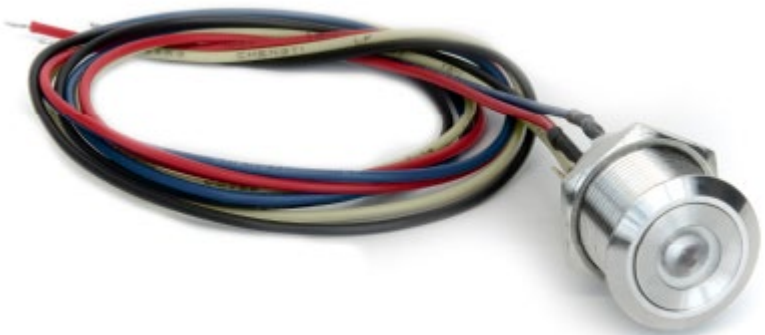

Stainless Steel LED Activator Switches

PlasmaGlow Stainless Steel LED Activator Switches have an LED Lighted Ring around the button. The ring lights up to notify you when the switch is active. Works on 12 Volts DC 10 Amps, 24 Volt DC 5 Amps, or 110 Volts AC at 5 Amps. Use a relay for higher amperage.

The switch is 100% waterproof, so it is approved for use on boats and wet locations. Activator Switches have an IP67 Rating. This heavy duty switch has a Mechanical Life Span of 1,000,000 uses, and an Electrical Life Span of 50,000 uses.

There are 2 versions of this switch available. Our Standard Switch turns on when you push it, and you push it again to turn it off. Our Momentary Switch only stays on while you are pushing the button (good for ignition, nitrous systems, or rocket launchers). With a roughly 1 inch diameter, they fit anywhere.

Casing Available in Stainless, Black, or Brass, 1-Year Warranty

AfterBurner LED Mirror Kit

This slim flexible strip is specifically designed to bring a custom look to your side mirrors. These unique LED Strips shine at an angle 90 degrees off the surface, so they can be mounted in thin places and the light will show out the side.

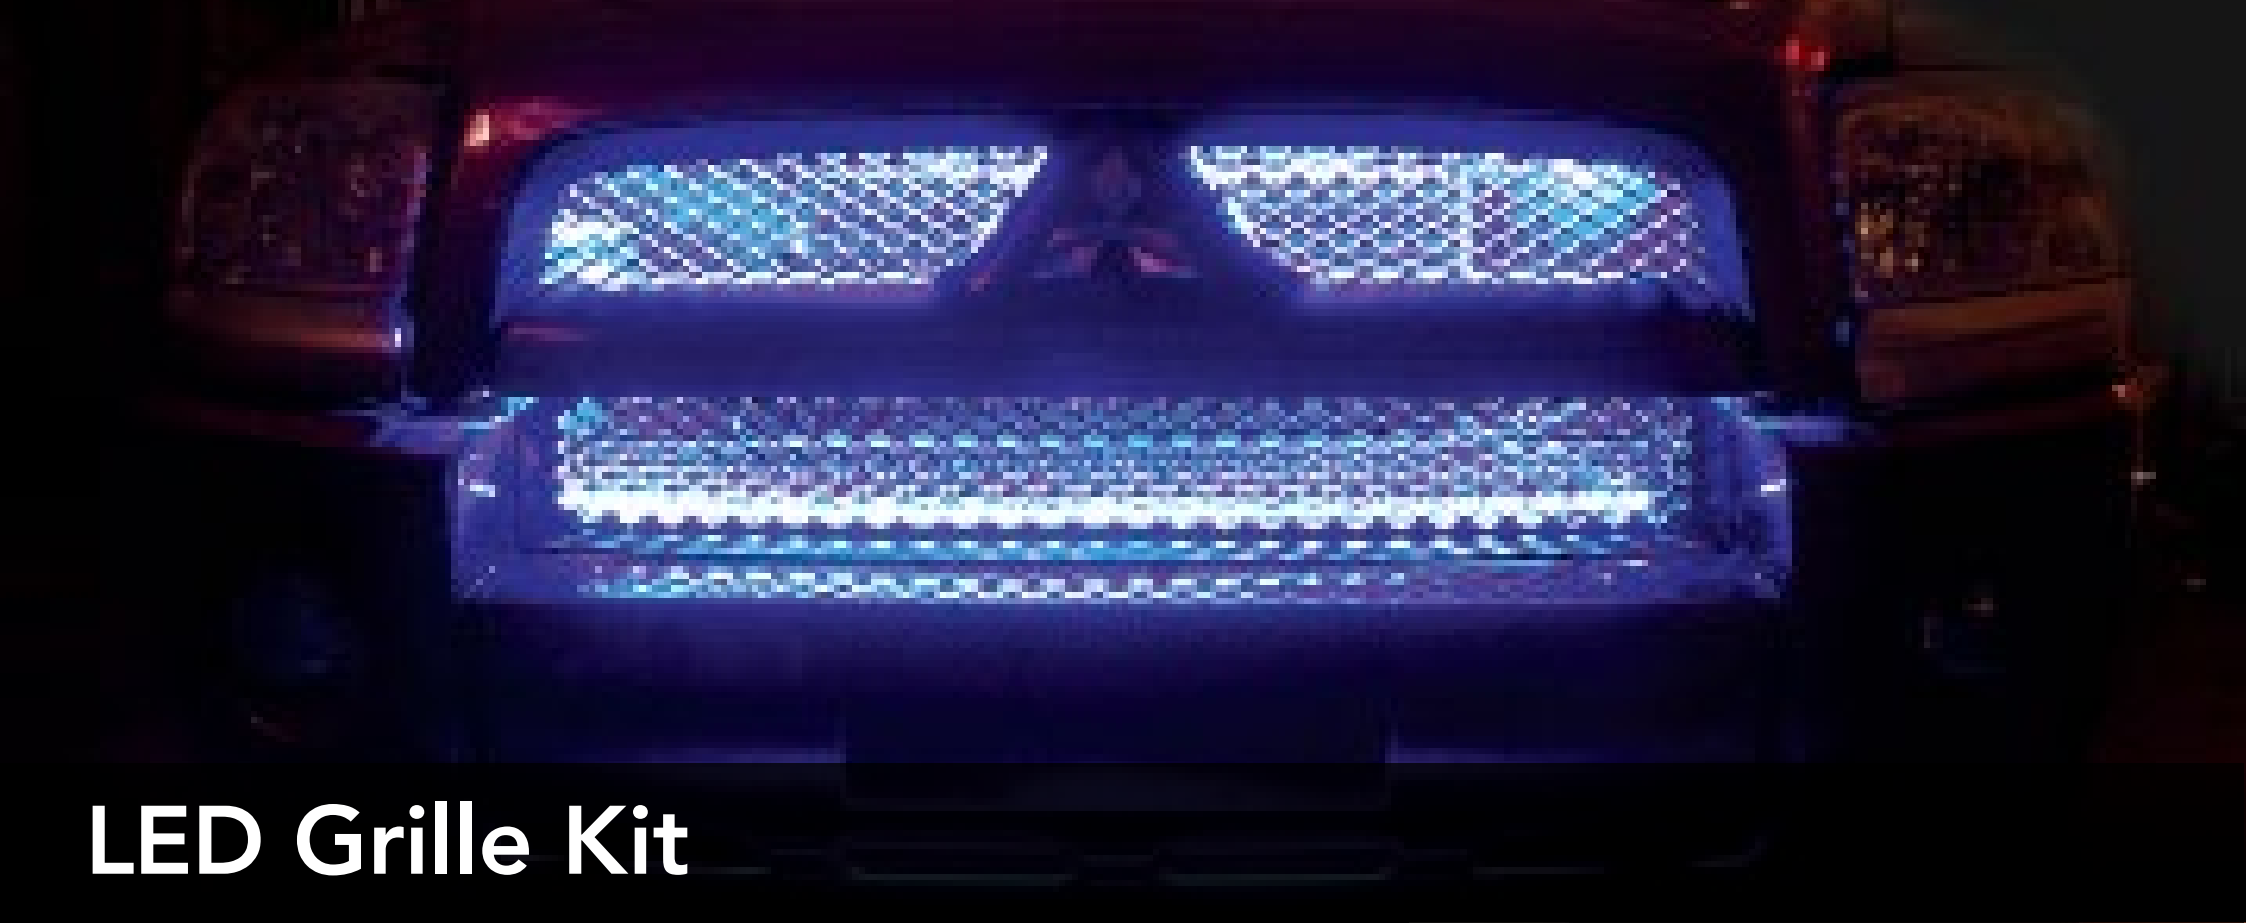

When mounted in your side mirrors, this thin flexible strip is invisible while it is turned off, but features extremely bright LEDs when your vehicle is on. The 19-inch strips can be cut to length to fit any headlight housing perfectly. They are simply mounted with super thin 3M adhesive and can also be used on door panels and gauge clusters. At less than 1/16" Thin, they can fit anywhere.

There are multiple ways to use the AfterBurner LED Mirror Kit, depending on your preference. You can hook them into your running light wire so they are always on with your car, into your headlight wire so they just come on with your headlights, or to your turn signal wire so they blink with your turn signals.

Fits All Vehicles – 2 Per Pack – 1 Year Warranty
Available in Blue, Red, Green, Purple, White, Pink, Amber

LED Wheel Well Kit

- > New Flexible Design
- > Only 1/4" Thick Tubes
- > Four 36" Tubes Per Kit
- > Fits Any Car / Truck / SUV
- > Color Changing Available
- > Lifetime Warranty

Are you tired of the limitations of Under Car Kits? The PlasmaGlow LED Wheel Well Kit will give your car a truly unique glow. Four 36" Flexible LED Bars are included, 1 for each wheel. They are encased in a transparent rubberized tubing to withstand the tough conditions of your wheel wells. The 2.1 Million Color Changing unit requires a control unit which can be bought separately or comes with the 2.1 Million Color Under Car / Truck kits.

Fits any Car, Truck, or SUV. Also great for use on Golf Carts. All installation hardware and installation instructions are included.

Flexible LED Under Car Kit

Our newest style of Under Car Kit features ultra-thin flexible tubes. New LED Technology allows this kit to have a smooth bright glow like Neon but is extremely durable.

The kit comes with four tubes, two 3ft tubes for the front and back of the vehicle, and two 4ft tubes for the sides of the vehicle.

Fits any Car, Truck, or SUV. Also great for use on Golf Carts. All installation hardware and installation instructions are included.

Available in 9 Colors, Lifetime Warranty.

ColorRod Color-Changing LED Scanner

ColorRod Color-Changing LED Scanners by PlasmaGlow utilize the latest technology in Fluid-Motion LED Scanning. The ColorRod is 18 inches (45cm) long, and is available in a single-bar and dual-bar version. They are completely waterproof and extremely durable.

The ColorRod has the ability to Strobe, Fade, and Scan, for a total of 130 different effects. You can also adjust the individual speed of any mode with the included wireless remote. The ColorRod is less than 1- inch wide so it can fit in extremely tight spaces.

The PlasmaGlow ColorRod includes a control box, and Wireless Remote to control your kit. To hookup The ColorRod to a wall outlet, order the PlasmaGlow 12-volt 5-amp Wall Adapter.

SEE THE VIDEO ONLINE!

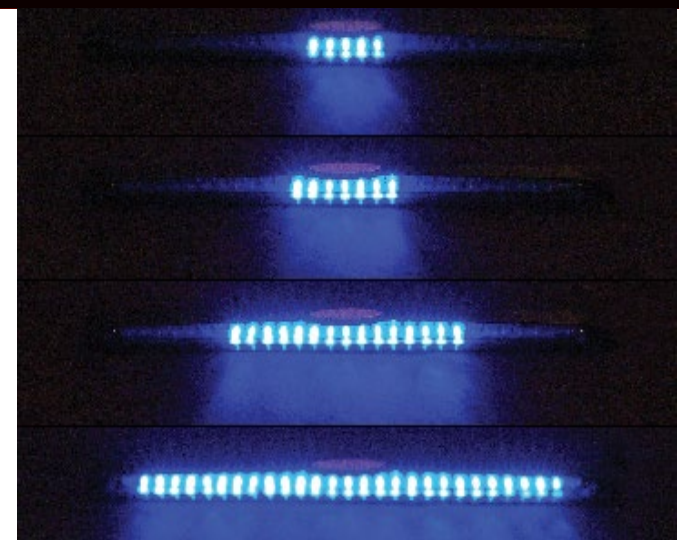

Night Raider 15" LED Scanner

The Night Raider LED Scanner can be used as an addition to your security system, a scanning third brake light, or a standalone scanner. It is 15 inches long and features 30 micro-processor controlled LEDs for fluid scanning motion you have to see to believe!

Use it as a scanning security system status indicator on your dashboard or in your grille, or use it in your rear window as a high-visibility third brake light. You can mount it in your grille, under seats, or anywhere else for a head-turning scanning effect! No security system is required, but it includes a signal wire that can be hooked up to scan with your alarm.

Rated for Interior or Exterior Use. Simple 2-wire Hook-up. Installation & mounting hardware and instructions included.

Available in Blue, Red, Green, Purple, White, Orange – Lifetime Warranty
