

LED Hitch Light Installation Instructions:

Step 1: Insert the LED Hitch light into a 2" trailer hitch receiver tube. Use the Allen wrench included, to tighten the unit in place.

Step 2: Connect the white plug from the LED Hitch Light into the white plug on the red & black wires.

Step 3: Run the red wire to a 12V (+) source.

Step 4: Connect the black wire to any ground (-) such as the frame of the vehicle.

Step 5: Utilize the weatherproof ON/OFF switch located on the back of the LED Hitch Light.
